AC LED Plug n' Play Technology

GeoLite™

Linear Lighting AC LED Systems

- A stunningly attractive yet simple lighting system, **GeoLite™** takes AC LED lighting into a new dimension.
- **GeoLite's** high reliability, high brightness LED technology means environmentally friendly low power consumption, minimal heat generation and long lifetimes.
- **AC LED** technology means easy implementation into existing consumer power infrastructures. Lower cost-or no power supplies and plug n' play simplicity in building complex lighting applications
- Ultra compact in profile, **GeoLite's** sleek lines minimise the impact of the system on aesthetic appearance.

- At last, designers are free to implement trend setting light concepts without consideration of access (for lamp replacement), heat dissipation or space
- **GeoLite** is constructed by setting the latest generation high brightness LED's into a slim aluminium profile of less than 15mm section. Totally flexible in design, the system can be configured to meet the individual requirements of almost any application
