- The REVO retail is the ultimate choice for various retail applications, art galleries and museums. Comes complete with a global 3 phase track rail adapter.
- Massive energy and maintenance cost reduction: Traditional lighting fixtures up to 70 Watt discharge or 100 Watt halogen can be replaced by the REVO that has a power consumption of only 20 Watt.
- Up to 50.000 hours of lifetime, due to the patented cooling system and the use of the latest generation of Cree/Luxeon LEDs.
- Easy interchangeable optical lens system with beam angles from 8° to 54°.
- Each single LED is fitted with its own interchangeable PCB for ultimate freedom in choosing LED colours; different colours can be mixed to create very warm tones of light. Special combinations are available for different types of products, such as food, clothing, jewellery and art.
- Very precise colour reproduction, due to the CLS sub-binning system.
- Future proof! As optics, LEDs and internal power supply can easily be replaced, the REVO will never be outdated by future developments
