Linear Strip light

Replaces:

1x 24W T5 Fluorescent

Applications:

Retail & Display, as well as General installations

Warranty (Yrs.)

5

VisiLite L.021 is a Linear Strip light, designed for Retail & Display, as well as General illumination to replace 1x 24W T5 Fluorescent fittings. With a minimum light output of 1350lm, this luminaire is a replacement for existing under shelf lighting systems.

The high efficacy (64lm/W) batten fixture has the power to illuminate merchandise with a similar effect to that of a Fluorescent lamp rated 1x 24W T5. L.021 has a useful life of 10 years in a retail environment

Unlike its predecessors which emit both UV and IR light spectrums, the L.021 creates light with wavelengths that do not lead to deterioration of the merchandise it illuminates. Furthermore the LED technology used is inherently stable so that there is virtually no deterioration with age.
